

## Dear Valued Lake Murray Optometric Patients,

**Starting March 23<sup>rd</sup> our office will only be available from 9am-3pm Monday-Friday** for urgencies, emergencies and glasses or contact lens orders. We plan on this course of action for at least two weeks and will keep you updated.

We take the coronavirus (COVID-19) spread very seriously and want to inform you on what we are doing to ensure your health and safety at our office.

We are closely following CDC and other health authority guidelines, and are regularly providing our team the latest safety guidance. In addition to our regular safety and cleaning procedures, we have invested additional labor hours to allow for more frequent cleaning, paying close attention to high touched areas.

In these extraordinary circumstances, we are committed to our purpose of delivering healthy living and our commitment to being accessible and reliable for our community.

### **If you are 65 or older...**

The California government has asked that those 65 or older isolate themselves from the public. In compliance with these safety measures, we are asking all patient 65 and older to postpone any routine care for the next few weeks. That means pushing out your annual exam to a further date.

If you need to be seen for a medical issue such as, dry eye, pink eye, new flashes/floaters or a sudden change in vision we are happy to see you. In fact given that we have far less people coming in and out of our office than hospitals, we would recommend it.

Thank you for your continued support!

**Dr. Robert "Tito" Gonzalez, and Team.**

**Lake Murray Optometric Center**

8312 Lake Murray Blvd. Ste C

San Diego, CA 92119
